MULTI-CABLE

MULTI-CABLE assemblies can be made using VEAM VSC, or CIR multi-pin connectors and multi-conductor cable. The wide range of cables allows the customer to specify the correct size cable required for their project. Sizes available include 16g/18c, 14g/18c, 14g/14c, 12g/19c and 12g/14c. Other cables are available for special applications.

Veam VSC connectors are UL approved and available with Double Bar Clamp or Basket Weave strain relief.

As shown below wiring for breakouts with twistloc, edison, or 2p&g. The cable used is either 14/3 SJ 12/3 SJ or with the kinky klamps 12/3 SO or 12/3 SJ.
