

SINGLE BAR PRE-RIG

A revolutionary truss designed to offer all the advantages of the regular Pre-rigged in a Single bar Pre-Rig layout. The size is 20.5" wide x 20.5" deep x 96" long as standard. The truss features a guide rod. This truss allows the use of pre-rig lighting bars with short nose Par lanterns. Ideal for users where a small truck pack is required.

Standard lengths and weights

PRODUCT CODE	DESCRIPTION	WT lbs
B0420S4	10' section	65
B0421S4	8' section	45
	See GP 20.5" x 20.5" cut sheet for other accessories	

To lower lanterns from storage to operating position, simply pull tab on shank hook with one hand while holding the lighting bar with the other hand. Then lower the lanterns into operating position.
